

PhD position in Plasma Space Propulsion

uc3m

EP²
Equipo de Propulsión
Espacial y Plasmas

- **Research group:** EP2 at UC3M, Spain
 - ☐ At present, >15 students carrying out their PhD Theses with us
 - ☐ More info of the group at ep2.uc3m.es
- **Research topic:** [Harmonization of fluid & kinetic models for plasma propulsion](#)
- **Grant duration:** up to 4 years, funded by the National Research Agency
- **Starting date:** around January 2024
- **Requirements for candidates**
 - ☐ BSc + MSc formation with a minimum of 300 ECTS credits
 - ☐ Excellent academic records in Fluid Mechanics, Propulsion, Applied Mathematics & Scientific programming
(Plasma Physics can be learned during formation period)
 - ☐ Team & independent working; critical & creative thinking
 - ☐ High proficiency in English
- **How to apply:** send your CV, motivation letter, and 2 references to ep2@uc3m.es in a single PDF file.
- **Deadline: October 16, 2023.** Late applications will be processed until the selection process is completed
